# Hacking Enigma

A fascinating illustrated talk on the breaking of the Enigma ciphers, with a hands-on demonstration of an original, iconic Enigma machine.

What?

Illustrated presentation on the fascinating Enigma machine story, and hands-on demonstration when the audience get to play with and photograph an original, iconic Enigma machine.

Who?

Talk by Dr Mark Baldwin (aka Dr Enigma), world expert on the Enigma machine and professional speaker with 20 years' experience and over 700 presentations around the world given at universities, conferences, clubs and companies, including some of the biggest names in tech (Facebook, PayPal, Dropbox, CNET etc).

Testimonials

"Everyone at Facebook loved having Dr. Baldwin come with the Enigma Machine. It was hands down one of the best speakers we've had" Brooke Pearson, Cyber Security, **Facebook** HQ, Menlo Park, USA

"Dropbox has been blessed to have some terrific speakers the past few years, but the session with Dr Enigma and the machine was truly exceptional. I got an avalanche of thanks for arranging the event." Scott Joaquim, Security Team, **Dropbox** HQ, San Francisco, USA

"Thank you for coming to CNET HQ in San Francisco and telling us the fascinating history of the world's greatest hack — and for letting us all touch and play with your Enigma machine! So amazing!" Connie Guglielmo, Editor-in-Chief, **CNET** News HQ, San Francisco, USA

Format?

Presentation of The Enigma Machine Story (45m + 15m for Q&A)

One hour talk on the Enigma Machine; the fascinating history, technical explanation and human story behind one of the world's most important hacks.

Hands-on Demo of an original Enigma Machine (30m)

Live demonstration of Dr Baldwin's personal Enigma Machine, where the audience can not only get up close but actually touch, photograph and play with a real, genuine Enigma Machine, and ask further questions.

Note: format can be altered to suit on request.

Target Audience

Dr Enigma's talks work excellently as lunchtime talks for employees, evening events where the host company opens invitations to the interested community, after-dinner speeches at clubs, or as conference keynote speeches.

As a professional speaker, Dr Enigma's content is pitched specifically to each audience, ensuring everyone will understand and enjoy it, and he has presented to all backgrounds, from tech leaders, to academic societies, to high-school students.

There tends to be particular interest from those in the software development, computer engineering, IT security and ethical hacking space, as well as anyone with an interest in Alan Turing and World War Two history.
